Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

CARBON TRADING CO.

A. B. CLAYPOOL ADDRESSES THE BOARD OF TRADE

The Board of Trade Luncheon held in the Carbon Hotel on Monday evening October 22, was a real success and a large crowd turned out from the town and district to listen to the remarks of the principal speaker of the evening, Mr. A. B. Claypool, M.L.A. for this constituency.

The evening opened by a luncheon in the Carbon Hotel Dining room and much credit is due the manager, Mr. Edwards, for the fine repast provided. Following the supper Mr. Claypool delivered an inspiring address to those present, outlining the policy of the government and the ways in which the Board of Trade, as an institution, could help to secure the most for the constituency at the present time. Mr. Claypool also outlined a plan of larger municipalities in order to get a higher education to all pupils in the Province, indicating the advantages of such municipalities, were they given more power to act on matters concerning themselves. Mr. Claypool also included in his address such important questions as the sale of Alberta's railway systems etc., and the power question as viewed by engineers. His audience listened to these vital issues with the greatest of interest, showing that the speaker's subject met with the approval of his listeners.

Following this speaker, D. G. Code addressed the meeting, proposing a toast to the countrymen. This toast was ably responded to by Messrs. S. N. Wright and L. B. Hart.

Other speakers during the evening were Messrs. Jas. McLeod, W. A. Braisher and Rev. C. B. Oakley, these gentlemen responding to a toast proposed to the Village.

J. A. MacDonald, president of the Board of Trade, acted as chairman for the evening.

ORATORICAL CONTEST TO BE COMPLETED BY DEC. 15

Announcement is made that Alberta school students in Grades IX; X, XI and XII, whether in high school or public school continuation classes, will take part in the International Oratorical Contest (Alberta Division) in 1929. Alberta students first entered in the International Contest last winter, and Miss Margaret Kinney of Edmonton was the winner. She was sent down to Toronto for the Canadian finals and she made a splendid impression. More than three hundred schools took part in the preliminary competitions in the last contest and it is expected that more than five hundred will take part in the preliminaries for 1929.

The winners in the individual school must be determined on or by December 15th. The district winners on or by February 15th. The fourteen district winners in Northern Alberta will meet in Edmonton during the Easter week and their fourteen in Southern Alberta will meet in Calgary the same week. The finals will take place in Edmonton a little later and in May the winner will be sent to Toronto for the Canadian Championship.

The expenses of the district winners, who are to go to Calgary or to Edmonton, are paid by the sponsors of the contest in Alberta. These winners also receive a \$10 gold piece, and the runner-up in each district will receive a \$5 gold piece. The winner in the Alberta finals receives \$200 and a trip to Toronto and a chaperone, if a girl, and the runner-up in Alberta receives \$50. Each school producing a winner is given two recommended books.

The contest is sponsored in Southern Alberta by the Calgary Herald, and in Northern Alberta by the Edmonton Journal. Roughly speaking, Lacombe is the dividing line of these sections.

There are no formalities connected with students entering, except that the coupon must be filled in and sent to either to the Journal or the Herald. The contest is strongly endorsed by Premier Mackenzie King, Hon. R. B. Bennett and other leading Canadians.

CARBON FARMER IS SENTENCED TO JAIL

Erland Johnston, a farmer from the Carbon district, was sentenced to ten days in Lethbridge Jail by Magistrate O'Connor on Saturday on a charge of being intoxicated while driving a car. Johnston was involved in a collision with a Ford car on the Nacmne road about three weeks ago in which occupants of the Ford were slightly injured, while Johnston's car was saved from falling over a fifteen-foot embankment by a tree.

E. C. Moyer, who defended Johnston, announced that he would appeal the case. The accused is now out on \$1000 bail.—Drumheller Mail.

A. W. I. MEETING

All ladies of the Carbon district are cordially invited to attend a meeting in the Farmers Exchange Hall on Tuesday, Oct. 30, at 3.30 p.m.

Mrs. (Dr.) Gibson of Drumheller, who is the convener of the Alberta Womens Institute for this district, will conduct the meeting.

DEBATE TO BE HELD AT MEETING OF ELKS LODGE

At the regular meeting of the Elks Lodge to be held Nov. 1st, a debate will be held, subject "Resolved that Civilization is Conducive to Happiness." The affirmative will be upheld by Messrs. J. J. Greenan and S. W. Ellis, while the negative will be sponsored by Messrs. J. A. MacDonald and C. H. Nash.

The Bank of Montreal announces that, commencing with Saturday, October 27, they will keep open on rainy pay nights for the encashment of miners' cheques. The hours will be from 5.30 p.m. to 7 p.m.

For two reasons—one that it promotes among our rising generation facility in public speaking and the other that it spreads throughout the Dominion a sounder knowledge of Canada and Canada's future.

For the 1929 contest four subjects are permitted the students, instead of one in the last contest. These subjects are: Canada Among the Nations, The Unification of Canada, The Peoples of Canada, Canada's Economic Problem.

The Grading of Wheat

The heavy frosts which descended upon Western Canada during the third week of August, had a most disastrous effect upon a large portion of the wheat crop of the prairie provinces, with a resultant lowering in grades which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss is will probably never be accurately known, but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grades, and consequently prices, are seriously affected.

Under the circumstances it is but natural that an outcry is raised against the whole system of grading, and some very rash statements are indulged in. The farmer who gets Number Three feels he ought to have received Number Two, and the man who is given Number Four contends he ought to have had Number Three, and so on down the line. This is but natural, but the result is that elevator operators, whether in the Pool or line elevators, are charged with taking advantage of the situation and grading too low. Governments, both federal and provincial, are held responsible for the system of grading in vogue, although, as a matter of fact, provincial governments have nothing to do with grading, which, as a matter of trade and commerce falls solely within the jurisdiction of the Dominion. If there was any truth in the charge that the Liberal Government, in Saskatchewan, is responsible for low grading this year, then the Farmer Governments in Manitoba and Alberta are equally responsible.

The truth of the matter is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Governments are responsible. It may be that the present system of grading requires revision but even that cannot be determined offhand. Canadian wheat occupies an enviable reputation in the markets of the world, and because of that reputation commands a good price. That reputation is based on the quality of our wheat, and that quality is guaranteed through our system of uniform Government inspection and grading.

It may well be that in a year like the present, a relaxation in grading would result in a larger proportion of our wheat being placed in higher grades, and better prices received by the growers. On the other hand, a lowering in the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be injurious to the reputation of Canadian wheat and any gain derived this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canada's wheat abroad is the biggest asset we have in the British and European markets, and it must be retained at all hazards. And to tamper with grading solely in order to meet climatic conditions in any one year would be fatal to that reputation.

There is this, however, to be considered. Does frost, which mars the appearance of the wheat kernels, and results in lower grading, actually impair the milling qualities of that wheat, and the baking properties of the flour made from such wheat? In other words, does frost affect the real quality of the wheat to the extent that our present standards of grading would indicate? If it does not, then it would seem that our grading need not be quite so drastic without affecting the established reputation of our wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratory, working in conjunction and full co-operation with all Western universities, is engaged in the task of ascertaining the actual facts and the full truth. In this important work the three provincial governments, the Wheat Pools, and the United Farmer organizations are all assisting.

Pending the result of such searching investigations, it is a mistake and unpatriotic for anybody to seek to inflame public opinion out of an unfortunate condition resulting from the vagaries of the weather which no man, or body of men, can direct or control. Rather should every man and every organization having the best interests of Canada at heart do what lies in their power to assist in this great work to the end that all may benefit.

It is never too late to learn; never too late to seek knowledge. One of the finest epitaphs ever placed on a tombstone was that placed over the grave of John Richard Green, the famous historian. It said "He Died Learning."

Wife—Do you realize that twenty-five years ago today we became married?
Absent-minded Professor—Twenty-five years! You should have reminded me before. It's certainly time we got married!"

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.
Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.
Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Nansen Believes Arctic Route Most Favorable

Explorer Planning Zeppelin Flight
Between Europe and United
States

A Zeppelin flight between Europe and the U.S. by way of the Arctic regions in order to determine the practicability of that route is now being actively prepared by a committee under the chairmanship of Fridtjof Nansen, noted polar explorer. It is believed that weather conditions will be more favorable in the Arctic than over the regular North Atlantic course.

The Zeppelin will be commanded by Captain Walter Bruns, secretary of the Society of Arctic Research. It is understood that the coming aeronautic convention in Berlin will fix the date for the Arctic flight, which probably will be next May or June.

Three Russian scientists, Prof. Wiese, meteorologist; Prof. Schmidt, biologist and Prof. Isatchenko, microbiologist were in Koenigsberg recently, en route to Berlin, and discussed plans for the expedition.

WEAK AND NERVOUS

A Condition Due To Watery Blood
—Easily Corrected Through the
Use Of Dr. Williams' Pink Pills.

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wonderful Future For Canada

Lord Peel Sees Great Things In Store
For This Country

"We see developing here a vigorous and varied civilization and we see a people growing with a clearly marked individuality of their own," said Lord Peel, grandson of England's Robert Peel and leader of the Empire Parliamentary Party, just before his departure for the Maritime Provinces. "We have fallen in love with this country and regret to leave these fertile plains and the bright stimulating air. We all foresee a wonderful future, even beyond the visions of the first pioneers. We believe the country is moving along right lines and it is only a matter of time until the ambitions of the most far-seeing are accomplished."

Lindbergh Going To Turkey

Mrs. Evangeline Lindbergh, according to a dispatch sent by the Constantinople correspondent of the Egyptian Daily newspaper Ahfan, has said that her famous son, Col. Charles A. Lindbergh, intends to visit her shortly in Turkey. The two will make an aerial journey to Syria and Jerusalem, to visit the holy places of Christianity.

The wife: "This paper says that in parts of the East a good wife costs fifteen shillings. Disgraceful!"
Her Hubby: "Well, a good wife is worth fifteen shillings, isn't she?"

Immigration for Canada from the United States this year is 25 per cent. greater than a year ago.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Japan's Traffic Problem

Traffic congestion has become so bad in the streets of Osaka Japan, that officials are contemplating use of the old canals. It is proposed to use boats propelled by outboard motors as a part of the municipal transportation system.

End Season's Work

Freighters From Hudson Bay Return To Nova Scotia Ports

All freighters being used in Government work on Hudson Bay, have left for Nova Scotia ports for the winter months, according to wireless despatches received at the Department of Marine. The tug Dainty and the steamers Canadian Voyager and Odile, left Fort Churchill recently. The vessels have been used in carrying material to be used in the construction of the harbor.

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

FEDERAL AID FOR HIGHWAYS SHOULD CONTINUE

Regina. — That federal aid for highways should be continued with additional aid to the various provinces was the view of the delegates attending the 15th annual convention of the Canadian Good Roads Association who dealt with many other matters of interest during the sessions here. Elimination of level crossings, building cement bridges and roads, the financial responsibility of urban municipalities in road development, gasoline taxes and winter roads all had their place on the agenda.

Hon. O. L. McPherson, minister of public works for Alberta, was unanimously chosen president of the association and other officers were elected. Seven invitations were presented for next year's meeting place and, while, no decision was arrived at Prince Edward Island would seem to be in favor with the delegates.

When the subject of Federal aid for highways was under review the discussions arising from this topic were crystallized in the following resolution:

"Resolved, that in view of the very marked and acknowledged benefit which comes to Canada as a whole because of the large investments being made in the highway construction and maintenance by various municipal and provincial bodies, such benefit being of a far reaching nature and affecting many branches of Dominion government service; and whereas the Federal government has collected in excess of \$200,000,000 during the past 10 years which can be directly or indirectly traced to highways; and in view of the fact that the Federal government recognized its interest in highways by a first grant of \$20,000,000, which has been expended; and, in view of the increase in highway travel throughout Canada, this association, in annual convention assembled, reaffirm its oft-stated belief in Federal aid to highways and that additional aid should be granted at the earliest possible moment to the various provinces and the executive committee is hereby instructed to make every reasonable effort to have this resolution made effective."

Entertaining Premier King

Entire British Cabinet Invited To Dinner At Savoy Hotel

London.—Premier Stanley Baldwin and the whole cabinet have been invited to the dinner to be tendered to Premier Mackenzie King of Canada by the Canada Club on October 10. This will be Mr. King's only speaking engagement in England. He will spend only one week in England and during that time is in hopes of getting about to see the countryside. Hon. P. C. Larkin, Canadian High Commissioner, will preside at the dinner, which will be held at the Savoy hotel.

May Appeal To Privy Council
Ottawa. — Permission to carry their appeal to the Privy Council in England will probably be granted to the Proprietary Articles Trade Association, found by the department of labor to be an association in restraint of trade. The matter, it is stated, is now before the department of justice.

Swedish Government Resigns
Stockholm.—The government of Premier Ekman, leader of the central bloc, resigned as an outcome of the recent election in which the government party lost several seats, including that of Foreign Minister Lofgren.

Fighting In China
Peking.—More than 2,000 Chihli-Shantung soldiers have been killed opposing the Nationalists northeast of Tien Tsin, says the Kuenin news service, reporting the surrender of the former Northern army.

Mayor Of Cardston Dead
Lethbridge.—Mayor Mark Spencer, Cardston, pioneer and eight times chief magistrate of that town died recently at Rochester, Minn.

W. N. U. 1753

Does Not Need Warships

South Africa Protected By British Fleet, Says General Smuts

Capetown, South Africa.—Speaking to an audience which was predominantly of Dutch origin, General Jan Christian Smuts, leader of the opposition in the assembly, was vigorously applauded in a memorable speech on the secession question.

General Smuts at one point declared: "If we were not within the empire we would have to go to America or France, or some other big country to protect us because we are not safe. One warship could bring us to our knees. But today we are not considered in a kraal. We are in a friendly circle with a powerful British fleet to help us if any injustice is planned toward us."

"We need not spend millions on a fleet," General Smuts continued, "but can concentrate on projects of development so necessary to a young country. The British Empire is not a bond tying us, but she is a helping hand."

Will Analyze Frosted Wheat

Scientists At University of Saskatchewan Have Started Work

Saskatoon, Sask.—Now that four Canadian scientific laboratories, including that of the University of Saskatchewan, have determined that milling and baking qualities are not lessened by toughening or dampening of grain, scientists here, in collaboration with the investigations carried on elsewhere in Canada, are turning their attention chiefly to frosted wheat.

With painstaking effort as to detail, the Saskatchewan University laboratory, under general supervision of Dr. T. Thorvaldsen, professor of chemistry, and direct supervision of Dr. R. K. Larimer, has begun work with the object of determining the actual damage done by frost to the milling and baking quality of wheat.

Expresses Sympathy For Florida Sufferers

King George Cabled Condolences To President Coolidge

London.—That King George takes a keen interest in world affairs is evidenced by the cable sent by him to President Coolidge, expressing his sympathy to the people of the U.S. for the sufferers in the Florida hurricane.

The message read: "I desire to express to you and through you as kind intermediary to the American people, my sincere condolences upon the disaster which has recently overwhelmed Porto Rico, the Virgin Islands and the state of Florida as a result of the recent hurricane and my sympathy with all those that have suffered from its effects."

Forty Killed By Explosion

Powder Magazine In Old Spanish Fort Caused Accident

Melilla, Morocco.—By an explosion of the powder magazine of the ancient Spanish fort of Cabrorizas Bajas forty persons were killed and 200 injured, some of them probably fatally.

The explosion demolished the old citadel, on a rocky hill overlooking the town. All houses around the citadel were destroyed.

Women and children were among the dead and injured. Nine soldiers of the Spanish garrison at the fort were killed. The government appropriated 25,000 pesetas (\$4,125) for relief of the families of victims.

Canada Will Be Represented

Ottawa.—Canada will be represented at the International Air Conference, which takes place in Washington in December. This was stated officially at the Department of National Defence. Canada's representative has not yet been selected but an announcement with respect to the selection will be made later. The conference has to do with civil aviation.

Chinese Soldiers Face Starvation

Shanghai, China.—Generals of the Nationalist army notified Nanking headquarters that 100,000 soldiers are in danger of starving to death in the Chihli vicinity. The message also said the villagers were suffering from lack of food and soldiers were not provided with boots or blankets.

Director Of Cancer Research

Dr. Ellice McDonald, shown above, who believes that he can forestall cancer by treating the subject through the administration of thyroid gland extract and other means. Dr. McDonald is director of cancer research at the University of Pennsylvania and the Philadelphia General Hospital. Dr. McDonald is a Canadian who had his early education at Winnipeg and finished it in Toronto. He has three brothers, Brig.-Gen. H. F. McDonald, C.M.G., D.S.O., of Winnipeg; D. H. McDonald, M.P.P., of Qu'Appelle, Sask., and F. A. McDonald, Winnipeg.

Attending University Of British Columbia

Percy Williams Will Take Freshman's Course In Vancouver

Vancouver. — Percy Williams, Olympic 100 and 200 metre champion, will attend the University of British Columbia here for one year. After that he will take the business administration course at the University of Washington. This was decided at a meeting of members of the committee in charge of Williams' affairs here, which Williams attended.

Williams spent two days in Seattle and returned home in order to discuss all angles of his situation with his friends here. He had been invited to attend the Washington institution.

"He is remaining in Vancouver for the year because he feels that it would be unfair to those who welcomed him so wonderfully and who have been so good to him to leave," a member of the committee said.

Zeppelin To Start October 10

London. — Germany's new trans-Atlantic dirigible, Count Zeppelin, will start its first flight to America not later than October 10, says an Exchange Telegraph despatch from Berlin. The generally favorable weather predicted for the North Atlantic during the first two weeks of October makes a start at that time almost certain, the despatch said.

Anglo-French Naval Pact

United States Government Rejects Agreement In Note Sent To Both Powers

Washington, Sept. 26.—An unqualified rejection of the so-called secret Anglo-French naval accord as a basis for renewed discussions on naval arms limitations is understood to be contained in the United States reply to Great Britain and France which were forwarded to Paris and London.

A separate note for each government was sent the American embassies for transmittal to the foreign offices.

It had been expected one note would be sent to both governments. Although it was learned the notes are not identical in form they are understood to be similar to each other in their essential facts.

It is understood both notes comprise a lengthy discussion of the American stand on naval disarmaments with respect to cruisers and submarines. This subject has been the centre of disagreement between the United States and Great Britain and is held to have caused the failure of the 1927 Geneva conference.

As indicated at the White House it is expected the notes will reiterate the United States stand on naval disarmaments as outlined at the 1927 Geneva conference.

Will Make Second Attempt Next Year

American Pilot Stranded On Flight To Stockholm Via Greenland

Copenhagen.—Bert Hassell, American flyer, who arrived here from Greenland with his trans-Atlantic companion, Parker Cramer, announced he would make another attempt next year to fly from the U.S. to Stockholm by way of Greenland. Hassell and Cramer, who were rescued in Greenland after having been stranded in the Arctic wastes, arrived at Copenhagen aboard the steamer Fulton.

They were accompanied by Prof. William H. Hobbs, leader of the University of Michigan Greenland expedition, which had brought them to safety.

B.C. Cabinet Unopposed

Vancouver. — The nine portfolio holding members of the British Columbia cabinet, headed by Hon. Dr. S. F. Tolmie, premier and minister of railways, were re-elected to the provincial legislature when they were unopposed at nomination proceedings. Voting was to have taken place on October 4, if there had been contests.

Air Mail Service Starts

Toronto.—Daily air mail service between Montreal and Toronto, and an international service between Montreal and Albany, N.Y., started October 1.

E. Philpott, British harvester from Liverpool, England, at work in a farming field of Vulcan, Alta.

CAMPAIGN IS ON FOR ELECTIONS IN GREAT BRITAIN

Yarmouth, Eng. The first open move in a nation-wide campaign for the forthcoming British general election, when Prime Minister Stanley Baldwin and his government appeal to the British voters for another five-year mandate, will be made here when 2,600 Conservative delegates, a record gathering of its kind, go into conference to hammer out a party platform.

Within a month from now Conservatives, Liberals and Labor, by means of their annual conferences will determine the issues upon which they will wage the biggest party struggle in this country since the Great War.

The most intense fights are expected on tariff questions, the extension of protective measures by means of "safeguarding" of industries by special import duties.

British political strategists are getting ready to adopt new means and methods of appealing to the public.

Close watch is kept on the rapid development of wireless and talking movies. "Talkies" are being made of Baldwin and other political leaders; motor cars and trucks with the latest broadcasting apparatus made ready for swift campaigns through the country districts. The hunt for party songs is on, and again the Conservatives are in the lead with song sheets already issued.

One ditty delicately alludes to the "flapper" vote, that uncertain bloc of five million newly-enfranchised young women for whom all parties are angling, all claiming flapper support, and none too certain of it.

Cement Firms Protest

Producers Will Contest Move For Removal Of Duty

Ottawa.—Contesting the application of the Canadian Council of Agriculture for removal of the import duty on cement, representatives of the cement producers in Canada continued the survey of facts relating to the industry before the tariff advisory board.

In the brief of the Canadian Council of Agriculture, which was filed recently, it was claimed that the prosperous condition of the industry did not justify continuance of the existing import duties. In opening the case for the producers generally, Professor J. Jackson, Toronto, categorically denied the claims of the applicants. He sought to prove that the cost of production did not leave 57.5 per cent. of the sales to provide overhead and profits, as maintained in the brief of the council of agriculture.

Decline In Unemployment

Stockholm.—Unemployment is on a steady decline in Sweden. Latest government figures, just released, show that the number of people out of work who applied for aid in July was 9,500 as compared to 11,169 in June, or a decrease of about 14.9 per cent.

Support For Gov. Smith

New York.—Representative Mary T. Morton, Democrat, New Jersey, in an address broadcast from here, appealed to women to vote for Governor Smith, whom she termed "the greatest humanitarian this country has ever produced."

Rain Damages Ontario Crops

Sault Ste. Marie, Ont.—Heavy rains and continued cold weather are alarming farmers of this district. Scores of acres of grain are said to be rotting in the fields, and potatoes planted on low ground are being ruined by excessive moisture.

Enters Noyel Plea

Detroit.—A plea that he was walking in his sleep when he shot and killed his wife, Amelia, has been entered as a defense for Chester Kutzub, 48, on trial here charged with murder.

France is the only European country whose present birth-rate shows an improvement on the pre-war figure.

FOR THE SKIN!

WORLD HAPPENINGS BRIEFLY TOLD

Old Age Pension legislation for Ontario is not likely to be enacted next year, but will be one of the government's main planks in its coming election campaign.

Baron Von Huenfeld, German flier, who stopped over at Constantinople on his flight from Germany to San Francisco, revealed that Germany is planning an air line to China.

A fitting ceremony marked the unveiling of a granite cross at Ile Aux Coudres, Quebec, commemorating the first mass ever said in Canada by Jacques Cartier, on September 6, 1535.

General Umberto Nobile has announced he would go into seclusion at the home of a friend in Naples soon to write the complete story of his recent Polar expedition.

An all-Canadian telephone service, Winnipeg to Montreal, has been established via Port Arthur and Fort William, a distance of 1,600 miles. Heretofore, a connection between these points has been made through the United States.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes: "I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Each of the continents has one or more towns bearing the name of Rome.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

First Film Actress—"Aren't you satisfied with one husband?"

Second—"Yes—but unfortunately he's not mine."

"HELPED ME WONDERFULLY"

**Woman Strengthened by
Taking Lydia E.
Pinkham's Vegetable
Compound**

Port Colborne, Ont.—"After having an operation, I was very miserable, weak, nervous and very near unfit to work. I saw Lydia E. Pinkham's Vegetable Compound advertised and tried it and believe it helped me wonderfully. I have no more, the pains have left me and my nerves are much better. I feel safe in saying Lydia E. Pinkham's medicine have helped me wonderfully."—Mrs. Wm. H. Breenheller, Box 143, Port Colborne, Ont.

W. N. U. 1753

An Interesting Collection

**Figureheads Of Old Warships Can
Be Seen In England**

At Castle's Yard, Millbank, England, is preserved the most complete collection of figureheads of old wooden warships—some of them dating back to Nelson's time—extant in England today.

Here may be seen figureheads from the Hood, Cressy, Bristol, Collingwood, and many other famous ships, carved out of timber and painted and gilded by men who were artists in their craft.

One very fine example is the Highlander that once belonged to H.M.S. Edinburgh. Another is a gigantic head of the Duke of Wellington, measuring nearly four feet from forehead to chin. The ship which this adorned was launched on the day the Iron Duke died. Another interesting exhibit came from the Fighting Temeraire, Turner's famous picture of which hangs in the Tate Gallery near by.

NEW BEAUTY for YOUR CLOTHES By Mae Martin

You can look attractive and stylish on less. Learn how to give new beauty and variety to your dresses and add individuality and charm to things around the home by the quick magic of tinting and dyeing. Perfect results are possible only with Diamond Dyes. Each package represents the perfection of 50 years of dye-making. They never streak, spot or run. They are real dyes, like those used when the cloth was made.

Diamond Dyes are easy to use. The "know-how" is in the dyes. Fashionable tints appear like magic right over the out-of-style or faded colors. Insist on Diamond Dyes and save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

British Columbia Apples

**Will Be Marketed In New Way
From Coast To Coast**

British Columbia apples are now going to be marketed in an up-to-date way from coast to coast in all the larger cities of Canada, it is announced by W. McL. Cooper, general manager of the Eden Apple Service, a subsidiary of the Associated Growers of the Okanagan, following meetings with Victoria and Vancouver wholesalers. Under the new plan British Columbia apple service stations will be established in all the chief cities where apples will be kept cool and in best condition. British Columbia apples will be distributed from these stations in a new style, half dozen and dozen cartons for the small buyer. All selling will be done through retailers, who will be supplied daily.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Seed Cleaning Station

New Government Station At Saskatoon To Be Ready For 1929 Crop
Dr. J. H. Grisdale, Deputy Minister of Agriculture at Ottawa, following a visit to Saskatoon, stated that it was the intention of the Federal Government to establish shortly at the latter city a seed cleaning station similar to that operated at Moose Jaw, and that he hoped the new station would be operating in time for the farmers to take advantage of it for the 1929 crops.

The Man With Asthma, almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Our National Buffalo Herd
Buffalo National Park, with its area of 197.5 square miles, is the home of Canada's national buffalo herd, there being a little over 5,000 of these animals now in the park. Moose, elk, mule deer, antelope and yak are also in the park.

Minard's Liniment—Popular for 50 years.

How to Make Rice Pudding

A TESTED RECIPE That Adds New Flavour!

4 tbsps. rice 2 1/2 cups Borden's
1-3 cup sugar St. Charles Milk
1/2 tspn. salt 1 1/2 cups water

Nutmeg
Wash the rice thoroughly, then add with the sugar and salt to the milk diluted with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours in a slow oven (300°F) stirring several times the first hour to prevent the rice from settling to the bottom. Serve hot or cold.

(Unsweetened)

The Peace River

**Success Being Achieved In All
Branches Of Agriculture**

The eyes of agriculturists are now turning to the Peace River country, where the winters appear to be comparatively mild, and where wheat, oats, and timothy seed can be grown and take prizes in world competition. In this wonderful stretch of country often by the middle of April the winter grains and grasses are greening and the first week in May sees the tulips and hyacinths in full bloom.

Summer temperatures range around 90, and though early frosts are at times experienced, harvesting is usually well in hand by the first week in September. Some splendid wheat yields were reported a year ago in the Grande Prairie and Valhalla districts running from 42 to 70 bushels to the acre.

The work done on the Beaverlodge Experimental Sub-Station is fully set forth in the report of that station which is available for distribution, and may be had on application to the Publications Branch, Department of Agriculture, Ottawa. The Peace River country is developing very rapidly, and the agriculture practiced is very diversified. Success is being achieved in all branches including grain, dairying, poultry and bee-keeping.

Externally or Internally, It Is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Will Continue Confederation Train

As a result of the great increase in winter travel between Ontario and the prairie provinces, the "Confederation," the Canadian National Railway, passenger and express which now runs between Toronto and Vancouver, linking these cities with Brandon, Regina, Saskatoon and Edmonton will operate as far west as Edmonton until January 5.

Minard's Liniment for aching joints.

Bienfait Lignite Coal

Approximately half a million tons of coal were produced from the Bienfait lignite coal fields last year, and it is expected that a similar amount will be dug during the coming winter months.

SUMMER COMPLAINT Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved. I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

OCTOBER 7

PAUL IN EPHEBUS

Golden Text: "We are His workmanship, created in Christ Jesus for good works, which God afore prepared that we should walk in them."—Ephesians 2:10.

Lesson: Acts 19:1-41; Ephesians 4:16.

Devotional Reading: Ephesians 3:14-21.

Explanations And Comments

The Forfeited Chance, Acts 19:8, 9.—On his third missionary journey Paul came to Ephesus, where he followed his customary method of speaking first to the Jews, and then to the Greeks. For three months in the synagogue he reasoned and persuaded as to the things concerning the Kingdom—the subject of Jesus' teaching. But instead of heeding his message, the Jews hardened their hearts, and some of them even spoke evil of "the Way" (used as a synonym for Christianity; recall Acts 9:2). Paul was obliged to break with the Jews, leaving the synagogue for the lecture-room of Tyrannus, where many of them followed him. Tyrannus was probably a Gentle who had a school of philosophy. Paul may have seemed to the Ephesians to be one of the wandering professors of philosophy who were so numerous in the early Empire. In the lecture-room of Tyrannus, from eleven to four, after that philosopher had finished his lectures, Paul proclaimed unto his hearers Jesus the Christ.

Two Fruitful Years, Acts 19:10.—For two years Paul continued teaching in the school of Tyrannus, and "all that dwell in Asia heard the word of the Lord, both Jews and Greeks." Within easy reach of Ephesus were the other cities of the Roman Province of Asia (on the western shore of Asia Minor). During these years were probably found the others of the Seven Churches of Asia of Revelation 1:4, 11.

Many of the converts who had practised magical arts came and, publicly renouncing their deeds, brought their books and burned them in the sight of all. "These were books of formulae for compelling the assistance of spiritual beings, or securing the affections of a beloved, or for inflicting pain and spiritual torment."—A. S. Peake. The act destroyed property valued at fifty thousand pieces of silver, or the customary pay for fifty thousand days' labor. Probably there were few copies of the magicians' scrolls, and to their rarity was due their valuation.

Recipes For This Week

(By Betty Barclay)

ORANGE CUSTARD (Serves 7)

2 cups Borden's St. Charles Milk.
1 cup hot water.
8 tablespoons cornstarch.
3 eggs.
1/4 teaspoon salt.
1/4 cupful cold water.
3/4 cup orange juice.
2 tablespoons lemon juice.
Grated rind of one orange.
1 cup sugar.

Mix cornstarch, sugar and salt, dilute with cold water. Add to scalded milk and hot water, stirring constantly until mixture thickens, afterwards occasionally; cook fifteen minutes. Add orange juice and slightly beaten eggs that have previously been mixed; mix thoroughly and lastly, add the lemon juice and orange rind. Cool and serve.

CARAMEL CUSTARD (Serves 6)

1 tall can Borden's St. Charles Milk with enough water to make 1 quart.
5 eggs.
1/2 teaspoon salt.
1 teaspoon vanilla.
1/2 cup sugar.
1/4 teaspoon nutmeg.

Gradually sift sugar into a hot skillet, shaking the skillet vigorously all the time to prevent burning. The sugar should melt about as fast as it is sifted into the pan. When it turns to an amber color (a light resin color) set on back of stove and add milk, being careful that milk does not bubble over, as is liable on account of the high temperature of sugar. As soon as the sugar is melted in the milk, add mixture gradually to eggs slightly beaten. Add the salt and flavoring to egg and milk mixture. Bake in custard cups in a moderate oven.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

People seldom improve when they have no model but themselves to copy after.

Castoria is a comfort when Baby is
fretful. No sooner taken than the little
one is at ease. If restless, a few
drops soon bring contentment. No
harm done, for Castoria is a baby
remedy, meant for babies. Perfectly
safe to give the youngest infant; you
have the doctors' word for that! It is
a vegetable product and you could use
it every day. But it's in an emergency
that Castoria means most. Some night
when constipation must be relieved—
or colic pains—or other suffering.
Never be without it; some mothers
keep an extra bottle, unopened, to
make sure there will always be Castoria
in the house. It is effective for
older children, too; read the book
that comes with it.

A TRIBUTE TO THE ELKS

There are a great many organizations in this province whose activities occasionally receive or merit the derision of the rabble. Some of the antics they get up to summon from the depths of the human understanding such gusts of laughter as Rabelais himself might have appreciated, such excesses of eucharistic abandon as even Groucho (ah, ha!) might have induced.

But when we come to consider the work of the "Brother Elks" in giving the children of Vancouver a good time we are faced with a manifestation of the pure delight of a man or a number of men get from helping others such as silences all comment and stultifies all cynicism about the activities of

organized endeavor.

For months these stout fellows work themselves tired over the arrangements for this great day and when the day arrives there is no Elk among them all whose business interests are allowed to interfere with his devotion to the kids. It is their day, and the Elks are there to see that they get the full educational and pleasurable value out of it. If the individual Elk misses out on a contract or a business engagement he just writes it off as too bad. But he does his stuff for the children just the same.

Yesterday their day went over bigger than ever. Thousands of children enjoyed the hospitality at the fair and thousands of children will be better citizens in the future from that memory. The principles of Empire and the meaning of the flag of Empire are very much easier inculcated into the young to the accompaniment of ice cream cones and free rides on the merry-go-round than there are to the insistence of a school teacher whose heart is not always in the business. Therefore, as Empire builders we owe the Elks a lot.—Vancouver Province.

This is a boost for the Elks. At the present time Carbon Lodge No. 195 is making a drive for members. So if anyone who is eligible wants to get in this fall, they had better get their application in now. The Carbon lodge is founded on the same principles, and has many of the objects in view as has the Vancouver lodge.

PUBLIC NOTICE

The Council of the Municipal District of Carbon No. 278, requests all ratepayers to attend to the payment of Taxes as soon as possible and thereby avoid penalties and enforcement of collections under distraint or by Tax Recovery Proceedings.

S. F. TORRANCE
Secy.-Treasurer

Here and There

(149)

Brandon's first broadcasting station has gone into daily use, and a studio located there will give grain and stock reports each day, and once a week in the evening, will broadcast local concert programmes.

A training school for the encouragement of home industries is being talked of in Winnipeg, following the Folk Song Festival held in that city recently under the auspices of the Canadian Pacific Railway. Montreal, it may be noted, has had for some years classes to teach their native handicrafts to children of foreign-born settlers, who would otherwise be likely not to acquire the skill they would have developed in their own country.

W. N. Beach, a hunter and photographer of wild life who had the unique distinction of finding two different pairs of locked antlers during his career, was a recent visitor to the General Tourist Department of the C. P. R. at Montreal. Locked antlers are very rarely found and one of the two pairs discovered by him are so firmly interlocked that they cannot be pulled apart by two strong men, and to be separated would have to be cut.

"In all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens" was the statement made by E. W. Beatty, president of the Canadian Pacific Railway, who has just returned to Montreal from an eight thousand mile tour over the company's western lines, accompanied by a party of directors and Montreal financiers.

FINAL PAYMENT OF WHEAT POOL FOR 1927 CROP

Winnipeg. Cheques for the final payment of 2 1/4 cents per bushel on the 1927 wheat crop are now in the mail for Wheat Pool members in Manitoba, Saskatchewan and Alberta. Of the total amount distributed amounting to \$1,722,105.89, Manitoba's share is \$251,873.53. The Saskatchewan Pool received \$2,870,820, and Alberta, \$1,609,143.75.

"The final payment this year is a flat payment on all grades of wheat," it was stated by E. B. Ramsay, general manager of the Central Selling agency. "As all marketing costs and all deductions for commercial and elevator reserves were made from the last interim payment, the Pool's final price for the past year on No. 1 Northern, Fort William, was \$1.42 1/4 per bushel, as compared with \$1.42 paid last year, \$1.45 in 1926, \$1.66 in 1925, and \$1.01 paid by the Alberta Pool in 1924."

Regina. President A. J. McPhail commented on the fact that the payment this year is somewhat earlier than the final payment from the 1926 crop, which was made on October 15 last year.

"A detailed report of the operations of the Pools for the crop year 1927-28 is, of course, not yet available, and will not be available until the annual meeting of delegates, which takes place on November 20, but it is sufficient to say at this time that the Pool management are satisfied with the showing made during the past year. They are confident that many Pool members did not expect the final price to be so generally satisfactory, and I can only repeat what I have already stated on previous occasions, that the Pool organization, as a wheat marketing agency, can only be effective to the extent that it is both efficient in management and in control of the largest possible volume of the total marketable wheat from Western Canada. It is, I think, generally admitted that the Pool organization is to be commended for the progress made to date in building up so rapidly such a huge organization, and we hope that our efforts will be assisted in the future by the addition of many million bushels more of Saskatchewan wheat, now marketed outside of the Pools."

Tuberculosis In Cattle

Disease Being Eradicated By Means Of Restricted Areas

Ottawa, Ont. — Tuberculosis in Canadian cattle is rapidly being eradicated through the operation of the restricted area plan, Dr. George Hilton, veterinary director-general of the department of agriculture, declares.

Where in some areas as high as 7.9 per cent, of cows had been found infected on the first tests, re-tests had shown a general falling off to approximately one-half of one per cent.

"There is a persistent and increasing demand upon the department for restricted areas," Dr. Hilton said.

"Farmers have found that by replacing infected animals with high class stock they receive greater financial returns with less work."

Robbery Motive Suspected

Saskatoon. — Belief that Mike Harrison, whose body was found on blood-soaked newspapers beside the C.N.R. tracks near Saskatoon, was the victim of foul play, was strengthened when it was discovered he had received \$195 pay from a farmer a few days before his death. There was only 15 cents in his pocket when he was found dead, his skull badly smashed, and wounds on his back.

Floods Hamper Relief Work

West Palm Beach, Fla. — Rehabilitation tasks in the hurricane devastated area about Lake Okeechobee have been seriously hampered by flood waters. The lake and surrounding streams and rivers were out of their banks after heavy rains. Thousands of acres of farm land were under water.

Unemployment Insurance

Question To Come Up For Consideration When Ottawa House Meets

Ottawa, Ont. — Unemployment insurance, which was the subject of investigation by the industrial committee of the House of Commons last session, will be given further consideration when parliament convenes again. This assurance was given by Hon. Peter Heenan, Minister of Labor, who stated that the majority of the provinces of the Dominion already had declared themselves upon the proposal.

In its report the industrial relations committee accepted and endorsed the principle of unemployment insurance, based on compulsory contributions derived from the state, the employer and the employee. The report further pointed out that the responsibility for such legislation primarily rested with the provincial governments.

On the basis of the committee's findings the department of labor communicated with the various provinces to ascertain which of them would be prepared to consider adopting the proposal and to what extent they were willing to go at the present time. Mr. Heenan intimated that these replies would be submitted to parliament at the next session. The minister refused to divulge the views of the provinces in the matter.

New Varieties Of Seed Wheat Ready

Demand For Garnet and Reward Greater Than Supply

Ottawa. — Nearly 25,000 bushels of seed wheat of the Garnet and Reward varieties will be provided by the Department of Agriculture this year, it is learned. The demand is stated by officials to be greater than the supply.

The new varieties were developed by L. H. Newman, Dominion cerealist, at the experimental farm here. The grain ripens from seven to ten days earlier than other varieties.

Last year's sale of seed grain amounted to approximately 3,000 bushels. So satisfactory have the results been that this year's production at the experimental farm will not nearly meet the demand. It is sold to the farmer at \$3 per bushel.

Sails For Antarctic

Commander Byrd Commences Expedition To South Polar Regions

Los Angeles, Cal. — With thousands of his fellow countrymen at the harbor to wish him well, Commander Richard E. Byrd, U.S.N., turned his face this afternoon toward his newest adventure in the ice-crusted regions of the South Pole.

The expedition, which embraces 82 members, will cost approximately \$1,150,000. The money was raised by contributions from all parts of the United States. The primary purpose of the trip is to make accurate maps and procure important meteorological and other data of the South Polar regions.

HAS SETTLEMENT PLAN

Lord Melchett, formerly Sir Alfred Mond, who is in Canada. He proposes land grants to settlers by the Dominion and the financing of the undertaking by Great Britain as a solution to the British unemployment problem.

Order Will Be Repealed

Canadian Residents Working In U.S. Are Not Immigrants According To Ruling

Washington, D.C. — Order eighty-six of the United States immigration department may be formally repealed within the next week or so. Promulgated on April 1, 1927, the order caused international turmoil until the Supreme Court of the United States technically nullified it by refusing to review the judgment of a New York circuit court of appeals, setting aside its provision that Canadian residents working on the U.S. side of the border were really immigrants, and must conform to all requirements of the U.S. immigration laws.

Conditions Are Improving

Department Of Labor Reports Fewer People Unemployed

Ottawa, Ont. — Material improvement in employment conditions throughout Canada during the current year is revealed in figures dealing with employment placements released by the department of labor. Up to the end of August, employment was found for 285,714 applicants at the various public employment offices in the Dominion. In the first eight months of last year work was found for 239,570 applicants.

China Inaugurates President

Shanghai, China. — General Chiang Kai Shek has been inaugurated president of China. For the first time in 17 years of her history as a republic, China thus attained a unified central government. This was a national holiday. Chiang was installed at Nanking, the Nationalist capital, with impressive ceremony, amid general rejoicing. He was made chairman of the Nationalist government council, with the title of president.

Farmhand To Stardom

Gordon McLeod, Now Touring West, Once Worked On Saskatchewan Farm

Winnipeg, Man. — A former Saskatchewan farm hand is now visiting the west under circumstances which can best be described as offering several varieties of vivid contrast. Years ago, as a lad, he was one of the humble toilers at the Indian Head Experimental Farm. He also, during that portion of his career, worked for a time at the Imperial Hotel there. At this moment, he is a stage celebrity.

The ex-harvester and student of the evening chores is Gordon McLeod, now heading his own London company on a transcontinental theatrical tour after being pitchforked into fame last year when he took Sir John Martin-Harvey's place on an hour's notice. Sir John was stricken ill in Toronto, and young McLeod filled the breach so sensationally that a number of Canadian financiers came forward and offered him the means to step into stardom.

Between the date of his earlier exertions at Indian Head and his present visit to the same vicinity, he has played in China, Japan, Burmah, from Cairo to Singapore, and from South Africa to London. During the war, he served under General Smuts in the campaign against German East Africa and later, as a junior lieutenant in France.

He has previously been starred in London, but this present year makes the first occasion on which he has scaled the theatrical heights for an international tour.

Many Killed When Building Collapses

Faulty Material and Hasty Construction Blamed For Accident

Prague. — The catastrophic collapse of a newly-constructed seven-storey building here may have taken a toll of 64 lives or more, it is feared.

Most of the victims were workmen putting the finishing touches on the building. Faulty materials and too hasty construction are blamed for the collapse.

The architect in charge of the construction of the building committed suicide when informed of its collapse.

A woman pushing a baby-carriage was buried beneath the avalanche of brick and masonry with her child. A chauffeur passing in a motor car suffered the same fate, as did two coachmen and the four horses pulling their vehicles. About a hundred workmen were in the building when it collapsed.

Will Reveal Pact

London, Eng. — It is understood that the cabinet has decided to publish a white paper containing full details of the discussions leading to the Franco-British naval compromise proposals with relevant documents and the replies from the powers consulted as soon as certain outstanding formalities are completed.

A WELCOME FOR SETTLERS FROM THE BRITISH ISLES

London, Eng. — "No bigger untruth was ever offered in respect to a nation and a country than to say that Canada does not wish to have migrants from the British Isles," Premier Mackenzie King of Canada declared emphatically in the course of a lengthy speech on Canada's immigration question and diplomatic representation abroad at the annual banquet of the Canada club here.

"Not only do we wish to have but we are prepared to advance money for their passage and indeed in some cases pay the entire passage for those whose labor we specially need," the Canadian Premier stressed after outlining the prosperity of Canada at present and the exceptional opportunities the Dominion held for migrants.

Hon. Charles Dunning, minister of railways for Canada, followed Premier King with a statement that he believed many of the British miner-harvesters who went to Canada this fall would remain in the west.

This experiment was merely the extension to Britain of the practice followed in Canada for 20 years, he remarked. Eastern Canadians had been going west on harvest excursions for two decades and many had settled permanently in western Canada.

The speaker strongly deprecated the idea that any considerable proportion of people without experience in Western Canada could be expected to start immediately to become successful farmers on their own account. Assisted settlement schemes could not in this way be wisely extended, he added.

A "certain type of propaganda appearing from Canada in the British press, conveying the impression that Britons are not wanted in Canada" was strongly condemned by the minister.

Winston Churchill Joins Union

Chancellor Of Exchequer Is Identified With Building Trade Workers

London, Eng. — Winston Churchill, chancellor of the exchequer, who made quite a reputation as a bricklayer while handling a trowel in the building operations at his home in Kent last summer, has made himself one with his fellow craftsmen by joining the Amalgamated Union of Building Trades Workers. The chancellor who paid his entrance fee by cheque will receive his union card shortly.

Notifying the new recruit to trades union ranks that he will be pleased to enroll him as a member, James F. Lane, divisional secretary, sent Mr. Churchill a copy of the rules mentioning the entrance fee of five shillings and a weekly contribution of nine pence.

"This," Lane wrote, "entitles you in addition to trade protection to one pound a week should you be called out on strike and to additional unemployment benefits should you at any time fall out of employment."

Under the regulations any one employing the chancellor as a bricklayer in the future must pay him the minimum wage.

Chamberlain Will Travel Across Canada

Reaches Victoria October 29, and Sails From Quebec November 15

Ottawa. — Sir Austen Chamberlain's Canadian schedule has been given out here. He will arrive at Victoria on the afternoon of Monday, Oct. 29, remaining there until Wednesday, Oct. 31, when he leaves for Vancouver, where he spends Wednesday night. Sir Austen will leave Vancouver for Banff on Thursday morning. He will leave Banff on Sunday, Nov. 4, and arrive in Toronto early Wednesday morning, Nov. 7.

The next evening he will leave for Ottawa, arriving in the capital on the morning of Friday, Nov. 9. His stay in Ottawa will continue until Tuesday, Nov. 13, when he leaves to spend one day in Montreal. From Montreal, Sir Austen goes to Quebec, arriving in that city on the evening of Nov. 14. He will sail from Quebec the next day.

CHAPTER IV.—Continued.

In appearance the champion very much resembled an ape. His bullet-like head was close cropped. The small piggish eyes were deep set under overhanging, beetling brows, and the nose was flat like a negro's. His lips were thick, with a repulsive twist that gave his face a sinister look. His massive jaw was purposely left unshaved to rasp the tender skin of his opponent's shoulders in the clinches. His enormous barrel-shaped chest was covered with a thick growth of hair. His shoulders were broad and his disproportionately long arms, heavily muscled, terminated in two thick ham-like hands. He gazed confidently at Donald's corner.

A pasteboard box containing the gloves was tossed to the centre of the ring. There was a stir as the announcer pushed his way through the ropes. Andy crossed the ring to examine the champion's hands for tape and to test thoroughly the new gloves for any trace of sewed in shot or lotion that would cause the eyes to smart. One of Garrieau's seconds was making a similar examination in Donald's corner.

A big man in a wide-brimmed hat, with a mackinaw coat over his arm, came walking down the steps of the arena. The look of astonishment on his face gradually gave place to one of joy. He ran to the ringside.

"Donald!" he shouted joyously, as he sprang through the ropes. With a thrill of pleasure Donald held out his hand to Jack Gillis. The big man's face was beaming. "Just got in," he said. "Bin lookin' all over town for you! I come to the fight and—holy mackerel!—here you are one of the fighters!"

Andy noted the glad look in Donald's eyes and he spoke sharply to Donald's seconds, who were for ordering the boisterous visitor out of

the ring. The word "psychology" was foreign to Andy, but he knew that Donald's mind had for a moment drifted away from the fight. Donald was surprised to see Douglas greet Gillis warmly as the big man left the ring.

"I have two good friends in the audience, anyway," whispered Donald to himself.

Andy leaned over him, talking in a low voice, giving him comfort and advice. "E'll try right along, Donnie, to get your goat by cursing and using vile language, but don't listen 'im, and don't lose your temper. 'E fights with 'is chin tucked in the hollow of 'is left shoulder and 'is neck muscles rigid. It's mighty 'ard to land on 'is jaw with a right. Now the first round," Andy went on, "you just jab 'im light with your left; don't 'it 'ard, just a good snappy punch. 'E'll think you 'ave no sting in it, and the next round 'e'll get careless and let you 'it 'im so's to get a punch. Of course, if you see a good opening, let fly with all you 'ave, but 'e won't open up until 'e tries you out a bit. Watch the dirty blighter in the clinches; 'e'll foul you if 'e gets a chance. Another thing; this is to be twenty rounds, so tyke your time. Now is everything clear to you, Donnie?"

"Yes, Andy."

Andy patted Donald's bare shoulder affectionately.

The contestants stood in their corners as they were introduced. The referee beckoned them to the centre of the ring for instructions. As Donald slipped the enveloping bathrobe from his shoulders and stepped forward, a murmur of admiration swelled from the crowd. His lean joints and broad shoulders showed to advantage in the bright light. The long, flowing muscles rippled under his skin when he moved, like those of a panther. Loud applause came from all over the arena. Garrieau, thinking the ovation was for himself, turned and ducked his head with a motion that was intended for a bow.

A rough voice near the top shouted: "Aw! that wasn't for you, you big stiff!"

The judge and the dentist turned and looked at each other. The eyes of the latter seemed to say, "I told you so." The judge smiled and nodded.

A fat man, who could not have been more than thirty-five years of age, yet with rolls of fat at his waist-line, a bulbous nose and florid face, bit savagely on a big cigar. "By gad!" he ejaculated, "that man is perfect." There was a look of admiration and envy in his red-rimmed eyes. Thus do men admire the strong, well-kept body of the athlete, even though their own physical self has degenerated to mere paste.

"Two to one that Garrieau wins inside of ten rounds!" shouted a voice. Douglas covered the bet at once.

"Now, men," instructed the referee briskly, "this is to be for twenty rounds. You are to fight clean breaks. You can hit with one arm free, but you cannot hold with one and hit with the other. When I say 'Break' I want you to break at once and step back. Do you understand fully? Good! To your corners."

Donald glanced at his friends, who sat with their eyes upon him. He felt Andy's hand upon him gently stroking his arm, yet he could not suppress the trembling in his limbs. "Everything's all right, Donnie," whispered Andy softly.

The gong rang.

Garrieau assumed the crouch Andy had predicted, his chin resting in the hollow of his shoulder, his eyes seeming to retreat into his skull under the overhanging brows. This was the champion's famous "fighting face."

"Pretty boy, ain't yer?" he scoffed. "I'm goin' to knock dose pretty teet' down yer throat, you—" he cursed. Donald snapped a light left to the ugly face and danced out of range. The champion's thick lips parted in a fiendish grin. "My, mamma's nice boy has a terrible punch!" he derided.

Donald continued his dazzling footwork, keeping the champion in pursuit and contending himself with occasional left-hand jabs that kept his opponent's head rocking. He shot glances at intervals to his corner for instructions from Andy, who nodded his head in approval of his tactics.

The round finished in the challenger's favour by a wide margin on points. The champion had not landed a single effective blow during the round.

The action of the first round caused Donald to forget his nervous-

ness. Andy crowded between his knees and gently massaged his body, all the while speaking words of commendation and counsel.

"Now that you find that you can reach 'im easily with your left, watch me for signals. If I see that 'e's openin' up, I'll give you the sign to shoot your left with all you 'ave. If he swings again with 'is left, try for 'is bread basket. You understand me, Donnie?"

"Easiest thing I've picked yet," chuckled the champion as he came to his corner.

"He may be stalling," cautioned his evil-faced manager.

"Huh!" grunted the champion. "I can take all he has in dat left and never feel it. I'm goin' to open up on him de last part of de next round."

The gong rang for the second round.

Donald caught a glimpse of Purcell's face as he crouched in the opposite corner. Such a look of vicious hate shot from his one gleaming eye that Donald shivered.

The rough element began to boo Donald for his running tactics. Some fans feel that they are being cheated out of the price of admission unless they can witness the spectacle of two boxers slugging toe to toe until one goes down. Science counts for nothing with this small minority.

"Whadda ya think this is, a marathon?" they shouted.

"Powder-puff punch!" derided another.

Garrieau suddenly tore in, letting loose a terrific right that would have stopped the bout right then if it had landed. From a clinch Donald looked to his corner. Andy went through the pantomime of shooting a straight left. Donald nodded.

"Powder-puff punch!" again shouted the disgruntled fan.

"Did ya hear that?" hissed Garrieau, twisting his mouth into an apish grin. "Yo can't hit hard enough to break an egg. I'm goin' to fix dose teet' for you now." He leered brutally as he tore after Donald, disdainful of the belittled left.

Donald stopped abruptly in his flight and shot a lightning left across to his pursuer's jaw. The champion saw it coming, but too late to block it. He threw his body into reverse, robbing the blow of a great deal of its force; yet enough was left to send him reeling back to the ropes, his head whirling and his knees wobbly. With a roar the spectators came to their feet as one man. The gong saved Garrieau.

The crowd gave Donald a deafening ovation as he walked to his corner. He looked for his friends and saw Douglas and Gillis locked in an embrace and dancing madly in the narrow aisle.

(To Be Continued.)

A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby. The well child makes everyone happy with his tuneful gurgle and bright laughing eyes. It is only the sickly baby who is not a laughing baby, for it is the little one's nature to be happy when well.

Mothers, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to radiate that happiness through the home again.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fevers and correct those troubles which accompany the cutting of teeth and in doing those things—and doing them well—they make baby happy and keep him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants, and in the afternoon I do what she wants."

Headache? Relieve with Minard's Liniment.

Mistress: "I see that another soldier has called for you, Mary. I thought you had only one sweetheart!"

Cook: "Oh, no, mum; two. You see, one's regular and the other's a reserve."

Little Helps For This Week

"Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need."—Hebrews iv, 16.

Of what an easy, quick access, My blessed Lord, art Thou! how suddenly

May our requests Thine ear invade! To show that state dislikes not easiness,

If I but lift mine eyes my suit is made;

Thou canst no more not hear than than Thou canst die.

—George Herbert.

Prayer is a key which, being turned by the hand of faith, unlocks all God's treasures.—Hannah More.

Relieves Asthma At Little Expense.

Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

The singing Memnon was a statue in Egypt which gave out musical notes when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Excited Person (complaining to postmaster): "And if I don't get better service, I shall give my postal business to someone else."

Minard's Liniment for sprains.

"Have you anything to say, prisoner, before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

The Dangerous Age

What is the most dangerous age of a person in respect to accidents? According to the Workers' Compensation Commission, at Sydney, N.S. W., a person of 20 years is in the greatest peril. From that age the accident rate decreases and the safest age is set down at 75 years.

EVEREADY Layerbilt

There's been a revolution in the science of battery building—Eveready has found a way to give you more battery for your money than you ever bought before!

The new Layerbilt principle can be understood by anyone. It simply gives you more current-making elements by packing flat cells like crackers in a box, instead of using many round cells with waste space between.

You actually get the equivalent of a much bigger battery and, of course, it takes much longer to use it up. That's why you should buy Eveready Layerbilts and save money. Now selling at new low prices. Ask your dealer.

The biggest day for grain hand-
ling that the port of Montreal has
experienced this season was regis-
tered on August 21st, when deliv-
eries went well over the 2,000,000
bushel mark for the 24 hours, and
receipts were recorded at nearly
1,500,000 bushels, a total handling
of 3,500,000 bushels for one day.The almost complete absence of
forest fires with their smoke
screens marring scenic effects—the
brilliant clearness of the air in this
region has made the present tourist
season the best on record in Brit-
ish Columbia. Many touring par-
ties travelled over the Canadian
Pacific lines, some breaking the
journey to motor over the pictur-
esque Banff-Windermere highway.
Among other groups may be men-
tioned the Alpine Club of Canada,
which held its camp at the Lake of
the Hanging Glaciers, followed by
the Trail Riders of the Canadian
Rockies.Approximately 250 new elevators
have been constructed throughout
Alberta this year. It is estimated
by local grain men. The total
capacity of these elevators would
be about 18,000,000 bushels, it was
stated. Complete figures for ele-
vator construction in the province
were not available, but grain men
stated that extension of facilities
had been progressing rapidly in all
parts of Alberta. The capacity of
the elevators varied from 35,000
bushels to 140,000 bushels. The
Alberta Wheat Pool alone has 110
grain elevator companies have in-
1927 and practically all the public
grain elevator companies have in-
creased their storage capacity.**CHANGE OF TIME
